

SAI VISHNU KANDUR C

UI/UX DESIGNER

saivishnukandur2006@gmail.com | 8310616935 | in/sai vishnu kandur c

SUMMARY

Cloud Computing student with a strong interest in building practical and user-friendly digital solutions. Skilled in C++, Python, and HTML, with experience in UI/UX design and creating intuitive interfaces. Passionate about combining technical development with design thinking to build efficient, scalable, and user-centered applications. Comfortable working in teams, presenting ideas, and continuously learning new technologies.

EDUCATION

B.Tech CSE in Cloud Computing SRM Institute of Science and Technology Ramapuram, Chennai CGPA:8.75	2024 – Present
Pre-University Course Alvas Pre University College ,Moodbidri Percentage: 86%	2022-2024
Secondary School Leaving Certificate Alvas Central School,Moodbidri Percentage: 80%	2022

WORK EXPERIENCE

UI/UX Designer, Future Interns - Designed user interfaces and user experiences for web and mobile applications with a focus on usability and accessibility. - Created wireframes, prototypes, and layout structures to improve user interaction and navigation. - Applied UI/UX principles such as visual hierarchy, consistency, and responsive design. - Collaborated with team members to refine designs based on feedback and improve overall user experience	January 2026 – February 2026
Newsletter Lead, SRM IST - Led the creation and publication of the college newsletter, coordinating with writers, designers, and editors. - Managed content planning, article selection, and layout to ensure clear and engaging communication. - Collaborated with the team to collect updates on college events, technical activities, and student achievements. - Ensured timely release of newsletters while maintaining quality and consistency	December 2025 – January 2026

LEADERSHIP & INVOLVEMENT

President, Andropedia

March 2026 – Present

- Led the planning and execution of technical events, workshops, and the club's flagship hackathon, overseeing overall operations and team coordination.
- Managed cross-functional teams across multiple domains, ensuring effective collaboration, timely execution, and successful event delivery.
- Represented the club in interactions with faculty, industry partners, and student communities while driving initiatives to increase participation and organizational growth.

General Admin, Andropedia

Dec 2025 – March 2026

- Assisted in organizing and managing technical events, workshops, and club activities.
- Coordinated with team members to handle logistics, scheduling, and event execution.
- Ensured smooth communication between different teams during event planning and implementation.

Media Lead, Andropedia

July 2024 – Dec 2025

- Supported senior executives with administrative tasks, including scheduling meetings, managing correspondence, and preparing reports.
- Assisted in the planning and execution of corporate events and client meetings, ensuring a high level of professionalism and attention to detail.

NSS Student Coordinator, NSS

Dec 2025 – March 2026

- Organized and participated in social service activities and community outreach programs.
- Coordinated student volunteers during events, awareness campaigns, and community initiatives.

CERTIFICATIONS

UI/UX Design – Complete Web & Mobile Designer

Udemy • 2026

- Covered core UI/UX principles including wireframing, prototyping, user flows, and interface design for web and mobile applications

Oracle Cloud Infrastructure Foundations Oracle •

2025

- Learned fundamental cloud computing concepts including cloud architecture, services, and deployment models.

Deloitte Cybersecurity Job Simulation Deloitte

(Forage) • 2025

- Completed a virtual job simulation focused on cybersecurity practices, threat identification, and security risk analysis.

Getting Started with Artificial Intelligence

IBM • 2026

- Gained foundational knowledge of AI concepts, machine learning basics, and real-world AI applications.

UI/UX PROJECTS

BloodLink – Blood Donation Platform

UI/UX Developer | Team Project (4 members)

- Designed the user interface for a platform that connects blood donors with patients during emergencies.
- Created clear user flows for donor registration and donor search to ensure quick access during urgent situations.
- Tools: Figma

Snip – Salon Appointment Booking App

UI/UX Design | Individual Project

- Designed a mobile interface for booking salon services with time-slot selection and service browsing.
- Created structured user flows for appointment scheduling, service selection, and booking confirmation.
- Tools: Figma

Fork & Flow – Food Delivery Website

UI/UX Design | Individual Project

- Designed a responsive food ordering interface including restaurant browsing, menu viewing, and checkout flow.
- Created layout structures to improve product visibility and simplify the ordering process.
- Tools: Figma.

TradeSphere – Trading App Interface

UI/UX Design | Individual Project

- Designed a modern trading dashboard with market overview, portfolio tracking, and trade execution screens.
- Structured financial data visualization to make trading insights easy to understand.
- Tools: Figma.

PROJECT

AI Code Reviewer

Full Stack AI Project • Team Project (4 members) • Sep 2025 – Nov 2025

- Contributed to the development of an AI-powered code review platform that analyzes user-submitted code and provides optimization suggestions using the Gemini API.
- Worked on full-stack integration including frontend interaction and backend API communication for processing AI responses.
- Collaborated with a team of four members to design system architecture and ensure smooth data flow between frontend, backend, and database.
- **Technologies:** React.js, Node.js, Express.js, MongoDB, JavaScript, Gemini API.

KEY SKILLS

Programming : C/C++ , Python(Basics)

Web Development: HTML, CSS.

Developer Tools & Platforms: VS Code, Canva, Figma

Soft Skills : Public speaking, Communication, Leadership.

UI/UX Design : Wireframing, Prototyping, User Flow Design, Responsive Design
